

Zaid Al-Sabbagh

LEAD SOFTWARE ENGINEER • FULL STACK & AI EVALUATION •
LARAVEL • REACT • LLM / RAG

sabbaghzaid88@gmail.com

github.com/zaid-alsabbagh

in.linkedin.com/in/zaid-alsabbagh

Lead software engineer shipping full stack web apps in **Laravel, React & TypeScript**, with an active second track in **AI evaluation**: prompts, rubrics, RAG grounded answers and model QA. Backed by an operations background leading large content moderation teams.

■ EXPERIENCE

Lead Software Engineer • HardRock

Dec 2025 → Present

Jordan

- Lead full stack development, deployment, and ongoing maintenance of HardRock's web platforms; own version control workflows and production release cadence.
- Integrated AI powered features and website agents to improve automation, user interaction, and business efficiency.
- Mentor trainees on development workflows, Git, deployment, and practical project tasks; uphold code quality and project structure standards across the platform.

AI Engineer • MENADevs

Nov 2024 → Dec 2025

Remote

- Authored and audited multi turn prompts, rubrics, and QA workflows for LLM evaluation across coding, data analysis, RAG, policy, and customer support tasks.
- Evaluated model outputs for correctness, instruction following, faithfulness to retrieved context, tone, and formatting; shipped targeted fixes that lifted downstream model behavior.
- Wrote atomic, non redundant rubrics with weighted scoring; rewrote ambiguous prompts for clarity and alignment, raising reviewer agreement on assessed batches.

Operations Team Leader • CsMena

Apr 2022 → Oct 2025

Jordan

- Led a team of 200 content moderation agents; owned quality, SLA, and policy compliance outcomes across multiple shifts.
- Built SOPs, training plans, and KPI dashboards; ran coaching cycles and analyzed trend data to set goals and trigger corrective actions.

■ SELECTED PROJECTS

NuorSteel • Steel Industry Corporate Site

Corporate website for a steel manufacturer: product catalog, multilingual content, lead capture forms, and an admin panel for non technical editors.

Laravel MySQL Tailwind Alpine.js

HardRock • Company Profile Website

Modern client style company website with a scalable React/Inertia stack, responsive UI, and business focused content sections.

Laravel Inertia React/TS Tailwind

SynergyMS • Enterprise Management System

Role based platform for HR, clients, employees, project managers, tickets, attendance, and dashboards. Built around Spatie Permissions for fine grained access.

Laravel MySQL Tailwind Spatie

■ TECHNICAL SKILLS

LANGUAGES PHP / TypeScript / JavaScript / Python / Go / SQL / Bash
FRAMEWORKS Laravel / React / Inertia.js / Livewire / Alpine.js / Tailwind
DATABASES MySQL / PostgreSQL / SQL Server
TOOLS Git /
GitHub / Docker / WSL / Postman / Vite / Jira / Figma
AI / EVAL Prompt Engineering / LLM Evaluation / RAG / Rubric
Design / QA Review

■ EDUCATION

Philadelphia University 79 / 100 Jordan

B.Sc. Accounting

Orange Coding Academy May → Nov 2024

Full Stack Web Development Bootcamp

■ CURRENTLY STUDYING

- DSA.** Binary search on rotated/sorted arrays, two pointer & sliding window patterns, complexity analysis.
- AI.** RAG pipelines, retrieval evaluation, and grounded answer faithfulness metrics.
- Systems.** Docker + WSL dev workflows; OSS code review (e.g. canopen python).
